MAJOR FOCUS

ACCOUNTABILITY

the 'Ideal' Model?

Why?

- Safe Care
- Efficient Care
- Tracking & Correlation
- Easier Administration
- Security & Confidentiality.

What?

- a 'UPCI' 'number'
- a 'Central Index'/ register
- a central admin function
- access mechanisms
- *local identifiers, registers, personnel and linkages!*

How?

- Don't know yet
- Working on it
- Will be hybrid
- Will take time
- Must deliver early benefits

Goal of the Project

- ...a national client index
- ...new technical systems
- ...new organisational model
- ...for patient registration
- ...to enable integrated health and social care processes

When?

- Business Case and Project Plan – 2007
- Implementation – 2008/9
- Maintenance/ Phase 2 - 2009

Questions?

and maybe some
answers...
