

External Quality Assessment Program for

Extended phenotyping, blood group antigens

Labquality, an independent provider of External Quality Assessment (EQA) schemes with over 50 years of experience, is introducing a new scheme for Extended phenotyping, blood group antigens. We are inviting a limited number of testing sites to participate in a free of charge pilot study for this new scheme.

This pilot study includes two whole blood samples to be analysed as routine patient samples according to your established workflow. Results shall be submitted via the electronic platform LabScala. The results will be processed and evaluated by the EQA Coordinator. The final report will include comments by the Scheme Expert.

4425 Extended phenotyping, blood group antigens

Samples: Two whole blood samples

Examinations: Antigens: C, E, c, e, K, k, Fya, Fyb, Jka, Jkb, S, s.

Distribution: November 2026, pilot study free of charge for a limited number of participants

Registration: Please register by [this link](#) or by scanning this QR code no later than 31 August, 2026

Participants selected for the pilot round will be notified separately by email.
