

Quality System Information

This document should satisfy requirements for Supplier/Service evaluation

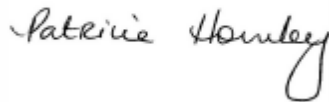

IEQAS has supplied External Quality Assessment (EQA) schemes since it was established in 1981 as a not-for-profit professional association, overseen by a Steering Committee consisting of nominees from three associated professional bodies:

- Academy of Clinical Science and Laboratory Medicine
- Association of Clinical Biochemists in Ireland
- Faculty of Pathology of the Royal College of Physicians of Ireland

Some EQA schemes are IEQAS-operated, while many more are available through collaboration with the EQA scheme providers listed below. IEQAS are responsible for dealing with sales, orders, queries and complaints for all schemes supplied.

Our website has current certificates, complaints procedure and other relevant information (www.ieqas.ie→Participant Info→Quality System Information).
